About us

ELESMART specializes in the development and production of wheelchair power attachment ,electric handbikes. Founded in 2011, the company is supported by a team of six technical experts, each with over 25 years of experience in the medical equipment industry. Our mission is to continuously enhance mobility for individuals with disabilities, enabling them to integrate into society and achieve a better quality of life.

At ELESMART, improving the daily mobility and quality of life for wheelchair users through our products is our ultimate motivation and driving force.

 Wheel Diamter	12"	 Torque	40Nm	 Display	COLOR TFT+USB
 Motor Power	36V 350W	 Lithium Battery	36V 7.8/12.8Ah	 Frame	Standard
 Speed*	25KM/H	 Range (KM)*	40/60	 Connection Method	Side

- 1.Gear and Speed Parameters: 3 forward gears, maximum speed of 25KM/H, 1 reverse gear, right-hand control for forward motion.
- 2.Cruise Control Function: Enabled by default, can be turned off.
- 3.Maximum Speed: Affected by actual user conditions, load, road conditions, etc., with a variation of ± 5 KM.
- 4.Range: Measured with a weight of 50kg work on 1 level on a flat road. Range depends on user weight, road conditions, wheelchair tire condition, battery condition, speed, and driving habits.
- 5. Charger: Complies with EU regulations, EMC tested, 36V dimensions is 104.3*53*26mm, 300g, Easy to take !

- Flip-up armrest
- Antibacterial fabric
- A key quickly fold
- Safe belt

Integration of ingenuity and art, Ultra light portable wheelchair,
Airline Carry-on Approved, Suitable for Airplane Flight Travel

Seat Width 36/40cm

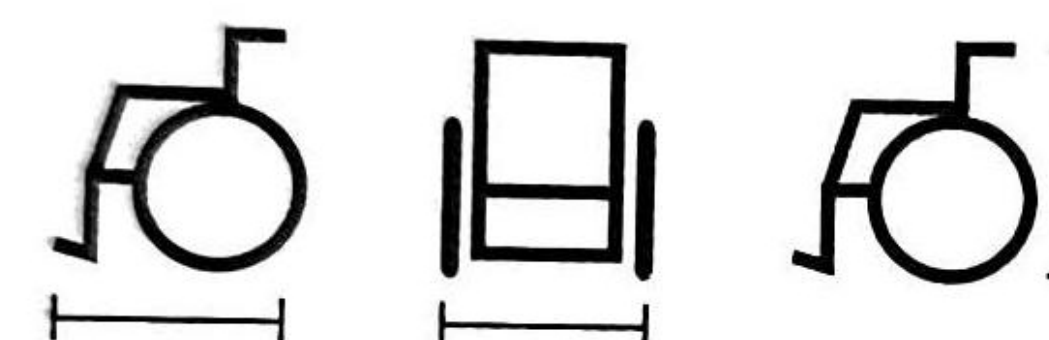

Front Seat Height 49cm

Weight Capacity 100kg

Weight 5.5kg

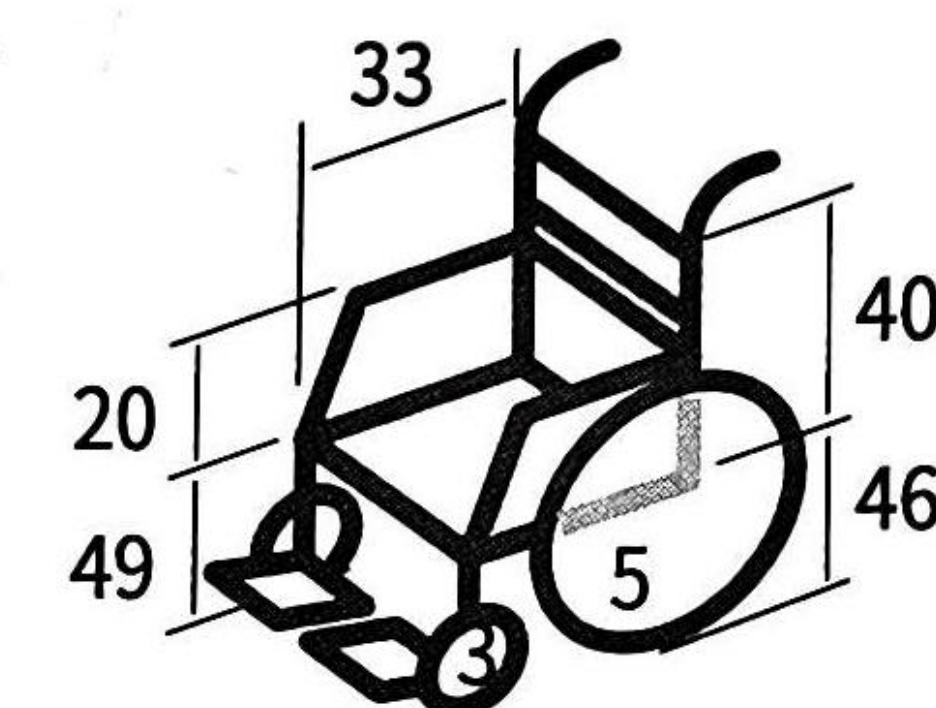

Size:

65 40/44 84

Folding Size: 19 40/44 53.5

● Aluminum alloy side plate

● Aluminum scissor brake

● High-density Woven Oxford Fabric

● Quick release wheels

The WX is an ultralight foldable manual wheelchair featuring quick-fold mechanism for compact storage and easy maneuvering in tight spaces.

■ Seat width	38/40/42cm
■ Seat depth	42cm
■ Back cushion height	34cm(Adjustable)
■ Front/ Rear seat height	47/41cm

7003 aviation-grade aluminum frame, lightweight and ergonomic with adjustable armrests.

24" quick release rear wheel

4" front caster (PU)

Scissor brakes

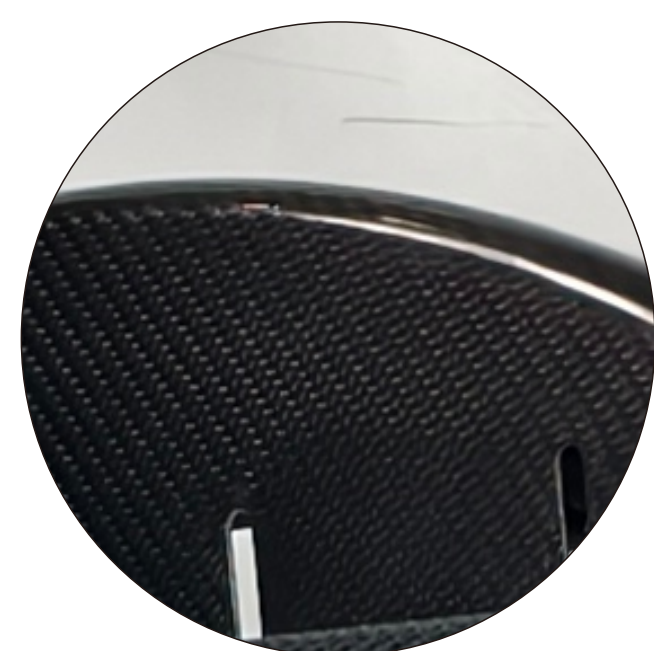

Foldable backrest

Weight capacity:120kg

Net weight:11.5kg

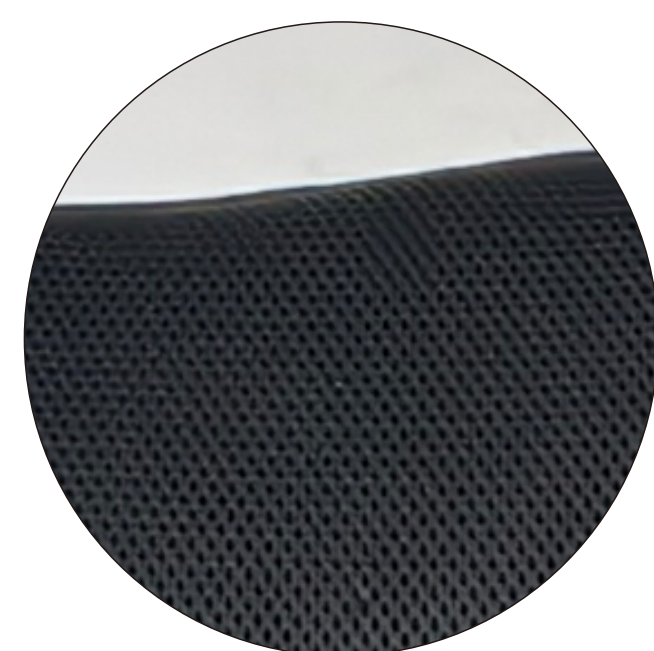

● Carbon fiber side guards

● Aluminum scissor brake

● Breathable sandwich mesh backrest

● Quick release wheels

The WR is an ultralight manual wheelchair with quick rear height adjustment and a durable, innovation-driven frame.

4" front caster (PU)

Scissor brakes

Foldable backrest

Weight capacity:120kg

Net weight:10.8kg

Top Sale electric wheelchair 24v 180w dc Quick-release hub motor , Built-in electromagnetic brake, will not slide when downhill .

Wheel Size	24"
Nominal Voltage	24V
Motor Power	180W
Power Supply	Lithium Battery
Motor Speed	3000 RPM
Reduction Ratio	43.2:1
Torque	64.8 Nm
Electromagnetic Brake	24V
Max Loading	120KG
Net Weight	11KG
